

Pipe Fiber Laser Cutting Machine

DA-6020 is fiber cutting machine for pipe tube cutting, it mainly used to cut round tube, square tube and oval tube, can achieve intersecting curve cutting and arbitrary angle bevel cutting function.

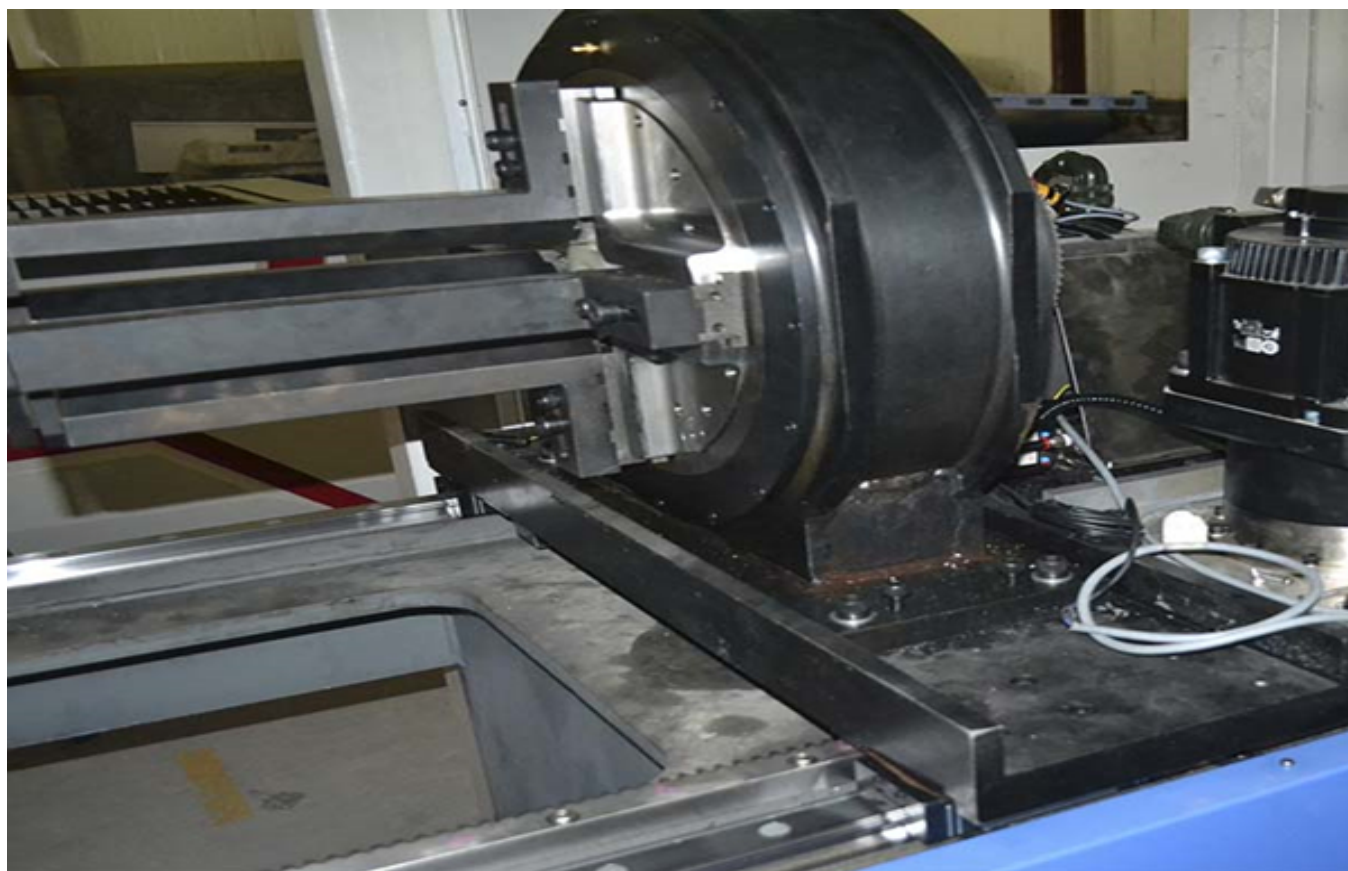

- Automatic clamping, automatic centering, high cutting efficiency.
- High cost-performance, suitable for medium quantity pipe cutting production.

Industry Application:

Metal Process Industry, Kitchenware Industry, Elevator/Mobile Industry, Tube Cutting Solution, Advertising Application, Cabinet Industry, Mechanical Part, Tool Parts, Precision Process Industry, Automobile Marking Industry, Gym Equipment Industry etc.

Model	DA-6020	
Tube cutting working area	φ20-320mm. Length 6m/8m	
Laser Power	1kw/1.5kw/2kw/3kw/4kw/6kw	
Fiber Laser	Raycus / Max/ IPG	
XY Position Accuracy	0.05mm	
Max. Moving speed	60m/???	
Max. Cutting speed	25m/???	
Working Voltage	380V, 50 /60Hz	
G.W.	5500kgs
